

2025 WORLDVOYAGE

The information in this document is accurate as of September 1st 2024, and may be subject to eventual changes. At Azamara, we believe in making your journey as smooth as the seas you'll sail. With guests from all around the world, it's important to note that visa requirements can vary. Thanks to surveying our port agents for this information, Azamara has compiled a list of visa and vaccination requirements for Australia, Canada, European Union, United Kingdom and United States of America passport holders.

To ensure a hassle-free experience, we encourage all travelers to verify their passport, visa and inoculation requirements independently, as they depend on your nationality and the destinations you plan to explore.

The visa information we provide applies to guests arriving aboard our ship and venturing ashore during port visits, participating in day tours independently, or joining our organized shore excursions and returning to the ship to depart. Please note that this information applies only if you are not disembarking to stay or fly out of the country for which the visa information is provided. For anyone disembarking the ship in a country, the visa requirements might differ.

We recommend that the passport has a six-month validity after the end of the voyage. Please be aware that certain countries require your passport to have between two to four blank pages for visas and stamps

Azamara is not liable for changes to passport, visa and inoculation requirements as they change from country to country. Passengers fully assume the risk and responsibility to ensure their ability to travel aboard the Azamara fleet.

Our welcoming atmosphere reflects the global spirit of exploration. Bon Voyage!
